

WEBINAR INVITATION

Introduction to the WHO Rehabilitation Support Package

8 June 2018, 10:00-12:00 Europe Summer Time (GMT+02:00)

Globally, there is a substantial and ever-increasing need for rehabilitation. In response, WHO has developed, and is currently piloting, a Rehabilitation Support Package, providing technical support and practical guidance for governments to strengthen the health system in order to provide quality rehabilitation services. The Rehabilitation Support Package offers guidance on the four-step process of rehabilitation system assessment, strategic planning, monitoring, and implementation, using the following tools:

- Standard Assessment of Rehabilitation Systems (STARS)
- Guidance for Rehabilitation Strategic Planning (GRASP)
- Framework for Rehabilitation Monitoring and Evaluation (FRAME)
- Action on Rehabilitation (ACTOR)

OBJECTIVE

Provide a basic overview of the WHO Rehabilitation Support Package, introducing the four-step process and corresponding tools.

PARTICIPANTS

The webinar is open to anyone interested in gaining a basic overview of the WHO Rehabilitation Support Package.

WHEN

8 June 2018, 10:00-12:00 Europe Summer Time (GMT+02:00).

LANGUAGE

The webinar will be conducted in English.

HOW TO JOIN

To confirm your participation, and receive further information on joining the webinar, please contact Ms Elanie Marks at rehabilitation@who.int.
